

# Wreck at Fifth and Main Wednesday Causes Injuries, Damage to Building

A two-car collision at the intersection of Main and Fifth streets in North Wilkesboro shortly after noon Wednesday resulted in injuries and left a building damaged.

One car was northbound on Fifth Street and the other was westbound on Main Street when they collided at the intersection, which has stoplights.

The impact forced the car on Main Street into the glass door of a building on the south side of Main Street, breaking down the door and leaving a hole in the glass.

Wilkes Emergency Medical Services, the North Wilkesboro Fire Department and North Wilkesboro police responded.

Wilkes EMS Director Tim Pennington said drivers of both cars were injured, but one declined treatment at the scene. Pennington said Wilkes EMS transported the other driver to Wilkes Medical Center for treatment of non-life threatening injuries.

Police are investigating and no additional details were immediately available.
